AIAA ICME Prize Competition Open for Submission

AIAA with the support of Composite Design and Manufacturing HUB (cdmHUB), NASA (National Aeronautics and Space Administration), and Rolls Royce Corporation funding have established an ICME (Integrated Computational Materials Engineering) prize for the best aerospace-focused ICME project. This bi-annual award will not only include recognition at SciTech 2022 conference, but will also provide a \$1,500.00 team award. Furthermore, each winning project and project team will be given special consideration for internship or follow-on effort to further realize the benefit of the proposed project with one or more of the sponsoring organizations: cdmHUB, NASA, and/or Rolls-Royce. More details can be found at <https://www.aiaa.org/get-involved/honors-awards/awards/award/award-icme-prize>.
