Hands-on Workshop at 31st American Society for Composites Technical Conference

Issue 0

Join us at the American Society for Composites 31st Technical Conference (Williamsburg, VA) for a hands-on workshop, on September 18, from 7:00–9:00pm, on how to use cdmHUB.org for composites learning, teaching, and research in the cloud. This workshop features an overview of the cdmHUB cyberinfrastructure, and how to use cdmHUB for learning, teaching, and research. We will demonstrate how to use cdmHUB to develop and launch composites simulation tools. Please bring your laptop or tablet so that you can enjoy real-time of exercise all the collaborative functionalities of cdmHUB and immediate access of a vast array of composites resources. Details can be found at <https://cdmhub.org/resources/1215>.
